PROFESSIONAL SUMMARY

Software Engineer with 4+ years of experience building modern web applications, eCommerce platforms, and content-managed websites for clients across Canada, the United States, and the Middle East. Specialised in frontend development with React, Next.js, and TypeScript, and in WordPress development from custom themes to headless architectures. Experienced across the full stack with Node.js and NestJS. Proven track record in frontend architecture, API integration, performance optimisation, technical SEO, and third-party integrations including payment gateways, shipping providers, and ERP systems.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3, SQL

Frontend: React, Next.js, Redux Toolkit, React Query, React Router, Tailwind CSS, SCSS, Bootstrap, Responsive Design, Server-Side Rendering

Backend: Node.js, NestJS, Express.js, REST APIs

CMS & eCommerce: WordPress, Elementor, WooCommerce, Headless WordPress, Shopify, Webflow

Databases: MongoDB, MySQL, Firebase

Cloud & Tools: AWS, Vercel, Cloudflare, Git, GitHub, Figma, ClickUp, Asana

Practices: Frontend architecture, Performance optimisation, Technical SEO, Code review, Component libraries, Mentoring

PROFESSIONAL EXPERIENCE

Webelocity | Canada (Remote) | Sep 2022 - Present

Senior Software Engineer

Oct 2024 - Present

- Coordinate a team of 6 developers building a purpose-built B2B eCommerce CMS powering wholesale operations for lumber suppliers, distributors, and healthcare retailers across Canada and the United States.
- Architect scalable frontend systems in Next.js and TypeScript while collaborating on NestJS-powered backend APIs.
- Own end-to-end delivery, including sprint planning, code reviews, architecture decisions, and production deployments.
- Integrated payment gateways, zone-based shipping (Shippo, ShipStation), and ERP connections into a unified platform.
- Build and maintain both merchant-facing admin dashboards and customer storefronts, supporting over 20 storefronts for wholesale distributors and healthcare retailers.
- Mentor junior developers and establish engineering standards, component libraries, and reusable patterns across the codebase.

Software Engineer

Sep 2022 - Oct 2024

- Contributed to the ground-up build of a large-scale, modular B2B eCommerce CMS developed in Next.js.
- Developed headless WordPress and React pharmacy applications for healthcare clients, improving measured site performance by 40% and strengthening SEO through server-side rendering.
- Built an internal ticketing system integrated with ClickUp, reducing cross-team response time by an estimated 30%.
- Maintained and improved multiple eCommerce stores across React, Next.js, WordPress, and Shopify, serving hundreds of B2B and B2C users.
- Contributed across the full frontend lifecycle: architecture, UI components, API integration, performance, and QA.

Independent Web Developer | Remote | May 2021 - Present

- Design, build, and maintain WordPress and Elementor websites for clients in fitness, construction, hardware, and professional services across North America and the Middle East.

- Deliver technical SEO configuration, on-page optimisation, and site performance improvements alongside development work.
- Implement lead-capture forms, conditional logic, and transactional email deliverability using WP Mail SMTP and third-party providers.
- Automate large-scale Elementor page construction and bulk edits programmatically through the WordPress REST API.

Upwork | Remote (Freelance) | Jun 2021 - Aug 2023

Frontend Developer

Jun 2021 - Aug 2023

- Delivered custom web solutions for clients across North America, specialising in JavaScript, React, and WordPress development.
- Managed the full project lifecycle independently: scoping, development, QA, client communication, and deployment.
- Built websites from scratch using vanilla JavaScript and WordPress, consistently meeting client requirements and deadlines.
- Optimised WordPress site performance and built custom plugins to extend functionality and improve load times.
- Completed an estimated 50+ projects with consistently high client satisfaction and repeat business across diverse industries.

Mostaqi | Remote (Freelance) | May 2021 - Aug 2023

WordPress Developer

May 2021 - Aug 2023

- Designed and built over 24 WordPress websites for clients across a wide range of industries.
- Delivered responsive, mobile-first builds achieving high Google PageSpeed Insights scores.
- Applied on-page SEO best practices, increasing organic traffic for client sites.
- Handled requirements gathering, theme customisation, plugin configuration, and post-launch support.

EDUCATION

Bachelor of Science in Computer Science | MTI University, Egypt | 2019 - 2023

Foundation in programming, algorithms, data structures, and software development principles.

Nanodegree, Professional Front-End Web Development | Udacity | 2021 - 2022

Advanced JavaScript, React, and modern web development practices.
